FLOWERS OF VOLUNTEER PARK CONSERVATORY

Blooming Month by Month

Seattle's Hidden Gem

Sara L. Chapman

For flower lovers everywhere! You can almost smell the flowers in this photographic tour of Seattle's historic crystal palace, the Volunteer Park Conservatory, one of the last remaining Victorian glass conservatories in the USA. The first book ever about the Conservatory, this beautiful little coffee table book helps celebrate its recent Centennial.

Created from twelve monthly visits, the book showcases rare tropical flowers and extraordinary foliage from around the world. Relax with the Conservatory's signature blend of perfect horticultural technique paired with world-class, creative plant combinations. Feel the healing beauty of these perfect flowers as you browse among the stunning displays, following their changes through an entire year.

Complete with common and scientific names of plants, the book includes an extensive index. Helpful and inspiring to armchair gardeners and plant professionals alike, *Flowers of Volunteer Park Conservatory* is a year-in, year-out choice for flower lovers everywhere—for beauty, reference and gifts.

A portion of the proceeds from the sale of this book is donated to the Friends of the Conservatory.

About the Author: Award-winning photographer, Garden Club member, and photoblogger Sara Chapman has gardened in New York, Florida, California and Washington State, with a life-long passion for scenic, flower, and garden photography—without fancy equipment. See her latest photos on www.lovethatimage.com/blog/. Her graphic arts studio, Art Squad Graphics, specializes in book design. She now gardens and photographs in Seattle, Washington.
